

DIGITAL WELDING GOGGLE

- Based on careful research and ergonomically designed for fit, COBRA is light, comfortable and easy to live with.
- As the heart of the new system, and a new concept in welding PPE, COBRA also incorporates unique and innovative features such as a shock absorbing and heat resistant frame; a self-adjusting silicon skirt and an 'eye-breathe' air vent system for mist reduction and optical comfort.
- The front cover lens is also hard coated for extra durability and increased protection from spatter, dirt and dust.
- From confined space work to pipe fitting; re-modeling and repair of automobiles, ships and equipment; welding inspection, supervision and training; maintenance and repairs as well as a host of other applications COBRA system is simply the better solution.
